---

**FORT BENNING** – Fort Benning has scheduled prescribed burning in several areas across the post this weekend.

Weather conditions and wind direction will determine which areas, if any, will be burned. Every effort is made to insure that prevailing winds are blowing in a direction that should keep smoke on the installation and away from sensitive areas and neighboring communities.

For more information, call the Public Affairs Office at (706) 545-2238. After duty hours and on weekends, call (706) 545-2218.
